EXPERIENCE

Toonimo, New York, NY— *Services Developer*

SEP 2021 - SEP 2022

- Tested and deployed guidance software for client web-applications
- Designed and implemented visual/audio guidance software.
- Monitoring, documenting and issue tracking of Toonimo's proprietary software.
- Integrating Toonimo's editor with other client applications.
- Working and communicating directly with client teams to manage expectations and timely delivery of software solutions.
- Analyzing user interaction data for potential software optimizations.

EDUCATION

University of North Carolina at Charlotte, Charlotte NC— BFA *Mass Communications*

MAY 2020

PROJECTS

Procore Labs — *Online Learning Curriculum for Procore software*

- Designed, deployed and maintained guidance software for Procore's web application.
- Was the main point of contact during the integration and building of 'Procore Labs'.
- Manual testing of guidance software to ensure a consistent user experience.

Veolia RPM— Integration with Toonimo and Veolia RPM Salesforce application

- Integration of Toonimo's guidance software on top of Veolia's Salesforce application.
- Working directly with Veolia as a project manager to maintain software delivery expectations.
